## A Teacher Comment from STARBASE One, Selfridge, MI

The program and the instructors are outstanding! We are most grateful for this opportunity. One day I saw a student sit back in his chair while designing his rocket, and he said, 'I could do this one day'. That told me that child was suddenly turned on to future opportunities. It does not get better than that.

-Teacher participating at STARBASE One, Selfridge ANG Base, MI

One day I saw a student sit back in his chair while designing his rocket, and he said, 'I could do this one day'.
